

Travel Vaccination Price List

We are a designated Yellow Fever Centre. We are able to provide a travel vaccination service to both registered patients and non-registered patients.

Organising Your Travel Vaccinations

It can take longer than you think to arrange and deliver a course of injections. We recommend that you start making arrangements 8 weeks before travel (6 months is required for complete protection of Hepatitis B). Please make a double appointment with the nurse to discuss travel vaccinations.

Vaccine Prices

Some vaccinations are provided without charge under the NHS contract to registered patients but are chargeable for non-registered patients. Other vaccinations have to be paid for as the NHS will not cover the cost. Our fees are listed below:

Consultation Charges

There is also a charge to non-registered patients for their consultation time with the Practice Nurse. These charges are per person, per appointment. The charges are shown below:

Consultation Type	Charge
Initial travel vaccination advice consultation (double appointment)	£20.00
Follow up consultation (single appointment)	£10.00
Yellow Fever ONLY consultation	£10.00

Malaria Protection

Malaria tablets are not available under the NHS. We advise you to go to a local chemist before we issue a private prescription and discuss your needs as you can purchase some antimalarial drugs over the counter. We can provide private prescriptions to registered and non-registered patients for malaria protection that are prescription only. There is a charge of £10.00 per private prescription and you will also be charged by the chemist for the tablets.
